

GoldMine Web

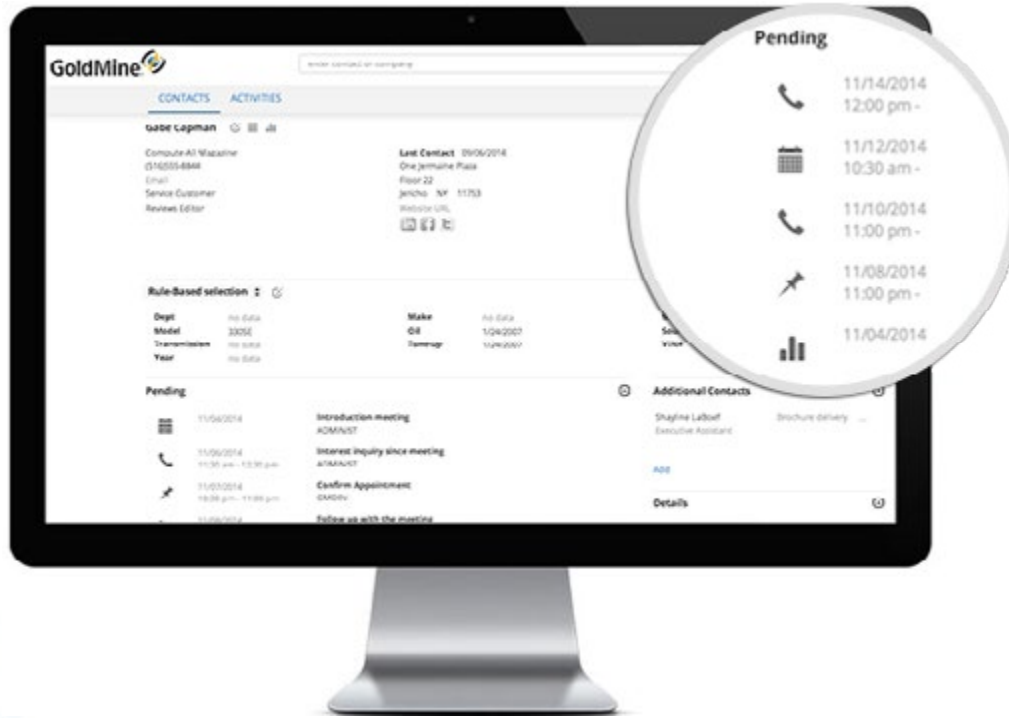

Your GoldMine CRM, accessible through a browser. Ideal for new users, remote offices, work at home, or traveling.

GoldMine is a leading customer relationship management (CRM) provider for Windows-based businesses. Whether the size of your business is small, medium or large, we have a solution for every stage of your company's growth.

GoldMine® Web

Insight | Knowledge | Results

GoldMine Web provides key contact and activity management. Its intuitive interface is perfect for users needing only basic contact management features.

- Launch a browser to view, update, and create new contacts & activities
- Link sent and received emails to your GoldMine contacts
- Easily view and filter activities by type, for yourself as well as those scheduled for another user
